A NOTE TO OUR PATIENTS: Preventative Medicine and holistic health care are only possible when the physician has a complete picture of the patient physically, mentally and emotionally. We are asking you to provide us with part of this picture by carefully and thoroughly completing this health history form. Print all information and mark any questions you do not understand.

You must understand that naturopathic physicians offer an approach to your overall care which may differ from other methods of diagnosis and treatment such as those offered by medical doctors. Our commitment is to provide you with appropriate naturopathic care and, to the extent possible, work with other health care providers equally concerned with your well-being. Our naturopathic doctors are NOT medical doctors and will never attempt to take their place in your overall health management.

FINANCIAL POLICIES

Please take time to read and sign this financial responsibility statement before your first visit.

PAYMENT POLICY: Payment is due at the time of service. Prepayment is required to secure a scheduled new patient appointment. We accept cash, checks, MasterCard, and Visa.

INSURANCE POLICY: We believe that you are capable of making informed health care decisions. We believe we are providing the care our patients want and need. Unfortunately, health insurance companies often do not recognize the efficacy or medical necessity for the services we provide. Over the last 40 years, we have found that insurers have created obstacles between providers and patients that waste both patient's and doctor's time, obstructing the efficiency, productivity and quality of health care delivery. For this and other reasons, we have elected to entirely opt out of insurance billing and reimbursement.

We will provide you with a copy of your bill that you can, at your discretion, submit to your health plan for reimbursement. We will not bill your health insurance plan. You are financially responsible to pay for our services regardless of any denial of payment by insurance companies, benefit payments, third party interest, or the resolution of any legal actions or lawsuits in which you are involved. Under no circumstances are we responsible if any health plan, HSA, or benefit you have denies you payment for our services for any reason.

MEDICARE, MEDICARE PART B, and Medicare Advantage: If you are a Medicare beneficiary, please understand that none of our providers are enrolled as Medicare providers at Center for Traditional Medicine, and that we will not bill Medicare, and that NO Medicare plans or supplemental plans will cover or reimburse you for the services we provide.

HEALTH SAVINGS ACCOUNTS (HSA) Rules for HSA accounts vary, and we will only provide you with a bill of services that you can use, at your discretion, to document your HSA expenditures.

INTEREST FEES: All fees are due at the time of service. In the event that funds are not paid at the time of service, after 30 days all accounts are charged a monthly finance charge of 2.0% of the unpaid balance, which is an annual percentage rate of 24% (or a minimum charge of \$5.00).

MISSED/LATE CANCELLATION APPOINTMENT FEES: We require two full working days notice for rescheduling or canceling new patient appointments. This requirement must be met to enable us to refund any prepayment. The prepayment fee for a new patient appointment is \$375.00.

One full working day is required to change or cancel return visits for established patients. The missed/late cancellation fee for established patients for a scheduled 1/2-hour slot is \$125.00; the fee for a scheduled 15-minute slot is \$75.00.

I understand that delinquent accounts may be assigned to a credit reporting collections service. If it becomes necessary to pursue collections of any amount owed, I agree to pay for all costs and expenses, including reasonable attorney fees. There will be a \$50.00 fee added to any account referred to collections. I hereby authorize the Center for Traditional Medicine, P.C. and Oregon Regenerative Medicine to release any information necessary to secure payment.

ACKNOWLEDGMENT: I have read this financial policy statement and understand its terms. I acknowledge that I have chosen to obtain the services offered at Oregon Regenerative Medicine, and have agreed to pay out of pocket for the services I receive. I have no expectation that my insurance plan will reimburse me. If I am a MEDICARE beneficiary, I attest that I have chosen to not use my Medicare benefits for the services I receive and understand that Oregon Regenerative Medicine will not bill Medicare.

Notice of Privacy Practices

This notice describes how medical information about you may be used or disclosed and how you can get access to this information. Please review it carefully.

Protected Health Information (PHI) is defined as any information whether oral or recorded, in any form or medium that is created or received by a healthcare provider that connects the patient's name to any treatment, financial status or health status in the past, present or future. PHI is generally used when we send and receive information to/from doctors, lawyers, pharmacies and insurance companies.

If PHI is requested by another office or by the patient, we request the patient sign a release form before any information can be shared or released. There is an understanding that we may send PHI if requested by your insurance company in order to secure payment for you. Only the minimum information necessary will be shared, as a rule.

Disclosure of PHI in the following cases do not require patient consent: If the disclosure is required by law, if the request is from the public health authority, if the request involves child abuse, neglect, domestic violence, in judicial and administrative proceedings, requests from law enforcement, requests for cadaveric organ, eye or tissue donation purposes, food and drug administration requests, in cases of communicable diseases, to avert a serious and imminent threat to health and safety, or workers compensation.

Patients have the right to receive a copy of this Notice of Privacy Practices. They have the right to access their own PHI and to request amendments and restrictions. Patients have the right to not be intimidated or threatened when making these requests. We may not require them to sign a waiver relinquishing these rights in order to receive treatment. Patient's names will not be used in any fundraiser or venture without prior authorization, except for our mailing list. Patients can be removed from this list by request.

Unless we are otherwise directed, PHI will only be released to friends and/or family if the patient is incapacitated or it is an emergency and ONLY if the doctor decides it is in the best interests of the patient. If you have family members whom you would like to authorize access to your PHI, please add their name(s) to the bottom of this form. Custodial parents have access to their children's PHI if they are minors unless another agreement has been made or the doctor believes there is a possibility of child abuse/neglect.

If a patient requests an amendment of, or access to their PHI, depending on the situation, the doctor may or may not comply. If access or amendments are denied, the patient will be provided with a statement that includes the reasons for that denial. Our office has 30 days to respond to any request for information. If the requested information is kept offsite, our office has 60 days to respond. If the patient does not agree with the doctor's decision, there is an appeals process that will be explained to the patient at that time.

Our staff are trained in privacy and security procedures. The front staff members have limited access to all active patient files and also to existing archived files dating back to 1978. (CTM routinely destroys files after 10 years of inactivity). They do not have authority to review and/or release test results, or to access any PHI without appropriate reasons. The practitioners in the office have access to their patients' PHI only, unless the on call doctor needs to access the PHI to assist the patient. If the patient sees more than one doctor at ORM, information may be shared between doctors. Both Dr. Peterson and Teresa Shelley (co-owners of CTM) have access to all existing patient records dating back to 1978. I have read the above notice.
